

MUHAMMAD ILHAM PRATAMA | Software Engineer

Depok, West Java, Indonesia | +62 838 - 7102 - 8000 | ilham.formal@gmail. com

- SUMMARY -

I have been a software engineer since 2018, experienced in handling diverse business models and complex cases in software development. Proficient in Backend, Frontend, and Mobile app development, with a strong focus on problem-solving and delivering impactful solutions.

My journey spans industries such as **healthcare/telemedicine** (2 years), where I built robust telemedicine platforms, **tour & travel** (1 year), optimizing travel solutions, **software house (SaaS)** (3 years), delivering scalable client solutions, and **aquaculture and fisheries** (1 year), leveraging transferable skills in big data, analytics, and system optimization.

- EDUCATION -

Pamulang University | Tangerang Selatan

Informatic Engineering , Bachelor

Aug 2013 to Oct 2018

Active to participate to seminar as an audience, join with software engineer org, and graduate with IPK 3.1

- WORK HISTORY -
